

# DAILY GAZETTE

SATURDAY, AUGUST 13, 1881.

## GAZETTE GLEANINGS.

J. Banner was busily engaged boxing his goods yesterday.

Bell & Co. have a nice lot of muskmelons at their plaza grocery.

Grand free lunch at the Exchange saloon and billiard room to-night.

The Street Car Company purchased yesterday a fine horse from Mendenhall, Hunter & Co.

A splendid free lunch will be served to-night at Billy's to which all are cordially invited.

The heavy rain of yesterday assures an excellent crop of corn and all kinds of late vegetables.

The Presbyterian church is progressing nicely. It will be a handsome building when completed.

The auction sale advertised for yesterday was postponed on account of the rain until this afternoon.

The street cars are beginning to work better now. Some of them run all day yesterday without leaving the track once.

Washouts were threatened at several points on the street railway yesterday but fortunately for travelers none occurred.

The street railway has carried an average of over 800 passengers daily since it has been in operation. This is very encouraging to the owners of the road.

Mendenhall, Hunter & Co. yesterday sold their valuable team of gray horses to Howard Cohn of La Cita. This team has traveled the streets of Las Vegas for the last eighteen months and will be greatly missed.

E. J. Fitzsimmons will next Wednesday commence loading telephone posts for shipment to Albuquerque. He proposes to put up a large number of telephones in that city. He will return to put in new lines in this city whenever they are ordered.

Marcus & Clemm have rented the store room now occupied by Maitland's grocery. They intend to put in a large stock of dry goods. These gentlemen have been very successful in the grocery business and it is likely they will meet with equal success in another line.

Fiske yesterday made the following sales of Buena Vista town site property: Seven lots to Adin N. Whitmore, two lots to A. C. Barney and four lots to Taylor & Fowler, making a grand total of thirteen lots. The number of purchases of residence lots now being made is simply wonderful.

It is rumored that a Kansas City paper establishment is thinking of putting a branch office in this city. If this be true and the other ventures talked of are really put in operation, Las Vegas will be deluged with daily journals. News will be cheap and plentiful enough to throw at birds.

**Dangerously Wounded.**  
Jose Maria Gonzales was shot and dangerously wounded Thursday morning at the head waters of the Ocate near the Black Lakes. He was working a mineral claim which he had found on the land of an American living there. The latter ordered Gonzales to leave, but on refusing to go went after him and shot him.

**Officer Franklin.**  
Officer Franklin has been recalled to his old position of policeman on the East side and will don the star this morning. He will act alone until a competent assistant can be selected. Mr. Franklin is an efficient officer and performed his duties so well while in office before that the people of the East side found it hard to get along without his services. Hardly had he and Mr. Jilson resigned their positions until the rough elements commenced the work of making night hideous and of holding men up. It was not more than a week until it required a sharp and decisive order from the committee of safety to quiet things down again. We are glad to see Mr. Franklin in his old position.

**Socorro Notes.**  
Mr. J. Leavitt came up from Socorro yesterday. He reports that town still booming.

The New Orleans and La Joya Smelter, under the energetic management of Wm. Van Slouten, has been finished and was fired up last Tuesday. It is now running on sample ores brought from the mines in the vicinity of Socorro, but ore is being shipped from Lake Valley for regular work as soon as the tests are made.

The Torrence mill is not yet completed but work is being carried forward at a rapid rate. It will be completed within a couple of months.

These mills will prove of inestimable value, not only to Socorro, but to the entire Territory, as the incoming tide of immigration will be enabled to see bullion produced without being compelled to leave the railroad. They will also help to develop the rich mines of Lake Valley and Tres Hermanos, which will give work to hundreds of people.

These mines are among the richest in the Territory and their ores can be shipped with great profit to all concerned.

## District Court.

Judge Prince is pushing business in court this term and evening sessions are regularly held to piece out the day.

The case of the Territory vs. Jose Serano and Francisco Lucero, indicted for stealing steers, constituted a lengthy trial yesterday. Acting Attorney General Catron addressed the jury at length last night.

**DECISIONS HANDED DOWN.**  
1208—Hot Springs Co. vs. Chapman. Motion for amended bill granted.

1235—Andres Sena vs. Vidal Ortiz; demurrer overruled.

1256—Lucero vs. Pacheco; plaintiff's motion to dismiss appeal denied and defendant's motion to dismiss original suit denied.

1244—Licon vs. Robledo; motion to dismiss appeal denied, motion to dismiss action denied.

1141—Collier vs. Robbins; bill of particulars ordered.

**CALENDAR FOR TO-DAY.**  
**CRIMINAL.**  
1198, 1220 and 1221.

**CIVIL.**  
1138—Lacy vs. Sandoval.

1145—Rupe & Castle vs. Stone.

1148—Helf vs. Chapman.

1156—Rupe & Castle vs. Stone.

1209—Moorehead vs. Thomas.

1237—McLean vs. Santistevan.

1040—Romero, sheriff, vs. Wagner and Sufin.

1251—Sisneros vs. Maestas.

1104—Rupe & Castle vs. Ward.

1248—Hays vs. Salano.

1258—Corkins vs. Prichard.

1218—Sulzbacher vs. Hopper & Hayward.

1141—W. B. Collier vs. A. O. Robbins.

757—J. P. Sellar vs. Patricio Gonzales.

1000—Territory vs. James B. Geaham et al.

No motions set down for hearing.

The court will continue all through to-day and Monday, not adjourning to-day noon as at last term.

**The Denver & New Orleans.**

The Denver papers state that a contract has just been closed with the Pullman company by the Denver & New Orleans for passenger, baggage and mail equipments for the entire line.

The company has in process of construction six large passenger engines of the Rogers manufacture, six Mason double-bogie freight engines and 200 freight cars. The company promises to have the track in position from Denver to the Arkansas river this year.

Thus it will be seen that the construction of this north and south road is assured. The company means business. The road will be built. They have the men and they have the money too. It will either come through Vegas or it will go a comparatively short distance to the east of us. It is only a short distance from Las Vegas to the Indian Territory, a dead sea and land forbidden to railroads. It must pass south on a line west of the Indian Territory. It now remains for Las Vegas, Trinidad, Cimarron the Maxwell Company and Mora, to hold out such inducements and so represent their advantages that the road may be brought down this most excellent route. It is 350 miles from Denver to Las Vegas and 300 miles from Las Vegas to the point where the Texas Pacific crosses the Pecos river. Thus 650 miles of railroad on this route will place Denver, by means of the Texas Pacific, in connection with New Orleans, Galveston and all towns of importance on the Gulf. It is much better than the 1,200 miles of air line to Fort Worth for through traffic and will afford local traffic which alone will pay to build the road. From Trinidad to Cimarron by way of Long's Canyon it will traverse 60 miles of coal beds, 100 miles of the finest pine timber in the Rocky Mountains and run close to the mining region of the Mereno valley and Ute creek. From Cimarron to Las Vegas it would pass through the most thickly settled and wealthiest portions of Mora and San Miguel counties, the agricultural and stock growing portion, par excellence of Northern New Mexico. From Vegas to the Pecos crossing, is down the valley of the Pecos river, equal in every production to the valley of the Rio Grande. It is the route marked out by nature for the Denver & New Orleans road to build down.

**The Waterworks.**  
Now as the contract for the construction of the waterworks has been let it will be of interest to the readers of the GAZETTE to know something of the magnitude of the undertaking.

The pipe will be obtained in Louisville, Kentucky and will weigh over one thousand tons. The pipe will consist of twenty-five thousand feet of ten inch, thirty thousand eight hundred feet of eight inch, about six thousand feet of six inch, ten thousand feet of five inch and four thousand feet of four inch pipe, aggregating the grand total of fifty-three thousand four hundred feet. It is equivalent to over ten miles.

The reservoir is to be placed above the Hot Springs and will furnish a water head of three hundred and fifty feet. When the works are finished they will throw a stream of water eighty feet high on the plaza and ninety feet high in the new town. This will be amply sufficient to deluge the highest building that will be put up in our city for several years to come.

## PERSONAL.

J. Ross, of Wisconsin, is a late arrival.

W. P. Prosser, of La Junta, Colorado, is in town.

T. W. Prime, of Pueblo, is a late arrival in town.

Dr. Kramer arrived from the east yesterday.

Con. Cosgrove went south on yesterday's train.

C. T. Jackson, of Ocate, is at the Summer House.

S. C. Burnett, of Topeka, is registered at the Depot Hotel.

Herbert C. Blythe came over from Glen Mora ranch yesterday.

A. B. Coleman, of Trinidad, is registered at the Exchange Hotel.

S. S. Wallace, Esq., of Trinidad, Colorado, came down yesterday.

H. A. True came down from his Northern trip of recreation yesterday.

Thomas Carson writes England after his name on the Depot Hotel register.

Mr. Leavitt, of the firm of Leavitt & Watrous, Socorro, is in town on business.

Mr. Alexander, the waterworks contractor, will start north on to-day's train.

Millard Brown, accompanied by Mrs. Neil Blackwell and child, came up from Socorro.

C. Richards and W. B. Richards, of St. Paul, Minnesota, are registered at the St. Nicholas Hotel.

Mrs. A. M. Conklin, of the Socorro Sun, arrived yesterday and registered at the St. Nicholas.

A. J. Calhoun, of Ocate, and C. T. Jackson, of Baltimore, came in yesterday on business matters.

A. A. Keene went East for a few months' visit. He has been in the bank for a long time and is richly deserving a lay-off.

G. W. Fox, Esq., a prominent lawyer of Parsons, Kansas, is in the city and will likely locate after he has viewed New Mexico.

Jap. Turpin, one of the old journalistic warhorses of Kansas, and founder of the *Optic*, arrived on yesterday's train. He proposes to write up New Mexico in glowing terms.

Engineer C. Frank Allen has gone East for a short visit to friends in Boston, and left Mr. E. W. Kline, formerly a county surveyor in Kansas, in charge of the office during his absence. Mr. Kline is a very competent man, and will fill the office very creditably.

Master Mechanic Doterer, of the machine shops at Raton, came down yesterday in company with Mr. Hackney, Supt. of the locomotive car department of the A. T. & S. F. railroad. Mr. Doterer gives a flattering account of the flourishing little city of Raton. Thousands of dollars are disbursed there monthly, and although but little has ever been said about its future possibilities, it is quietly working its way to the front, and is liable to make as rich and lively a city as some of those that make so much noise.

**The Foundry.**  
The heyday of prosperity and rejoicing over schools, water works, street cars, gas, telephones, etc., we should not forget those other elements which aid so largely and materially in adding to the substantial wealth of a city. The greatest prosperity cannot be reached alone through trade. Add to our commerce manufacturing, then will Las Vegas begin to thrive as never before. Let us become producers as well as middle men and the money which comes to the city will be largely retained. The establishment of foundries, machine-shops, woolen mills, etc., must be the next object which should attract the attention of the energetic citizens of this enterprising town. The first in order, and one which we will obtain, is a foundry and machine shop. Mr. Adlon, who was here some months since looking at Las Vegas as an available point to which to remove his extensive iron works located at Albia, Iowa, writes to Mr. Jefferson Reynolds as follows:

ALBIA, AUG. 6th, 1881.

DEAR SIR:

Your favor of July 29th was received and contents noted. The difference you speak of between us does not amount to much, as we do not desire the \$2,000 till our building is ready for us to go into, and our machinery and fixtures arrive in Las Vegas, but there might be a controversy as to what the freight would be on machinery, as a great deal of our foundry fixtures could not properly be called machinery, and possibly some machinery would not be shipped all at the same time, as we are having made expressly for us, some machine tools, which might not all arrive at the same time. Therefore to avoid all controversy, we will say that the \$2,000 will be due when our machinery and fixtures arrive in Las Vegas, as it will not make any difference to us what part your kind offer will be applied. We only wish to avoid all misunderstanding. Please let us know if so, I will come to your city, and make arrangements to build at once.

Respectfully Yours,  
J. C. ADLON.

The traveling public will find every thing first-class at the Grand View Hotel.

## The Taos District.

A correspondent in the *Taos Mining Journal* has the following to say concerning the mineral district of Taos. What this correspondent says only second-claims for that rich mineral region and shows the necessity for direct mail communication between that point and this city:

The camps of the district are the Picuris, Rio Hondo, Arroyo Hondo, McGregor, Carbonate and Copper Hill. The minerals being gold, argentiferous galena and copper, also specular iron, corundum and certain tumors of tin. The copper ores are said to assay as high as fifty per cent, and even more; galenas \$110 per ton, and gold yielding good returns from river washings and quartz leads. From the McGregor camp I was shown some really very handsome specimens of quartz, well impregnated with galena, taken from the surface croppings with moss still adhering to them. There are something like 200 locations made here, several of them by old Colorado and California miners who are well satisfied with the showing and refuse to try their chances anywhere else in preference. As is naturally to be expected very few developments have been made in so new a camp, the greatest depth yet attained being sixty feet, besides a tunnel driven some distance into the side of a hill. In each case really good ore has been found in fair quantities. The main feature thus far seems to be the scattered nature of the veins but which seem to consolidate in depth so that before long larger veins with more abundant mineralization may be expected.

**Routes Re-Let.**

Con. Cosgrove went south yesterday to look after several mail contracts, which he has secured in the southern portion of the Territory. He has obtained the contracts for carrying the mails from Eagle Station to Grafton in the Black Range and also from Nutte station to Hillsborough. We are glad to hear of the success of Mr. Cosgrove in obtaining these routes as we know they will be well handled. The cutting down of the Pecos line has given them a large amount of surplus stock which they can put on these new lines. The success with which the Pecos, one of the most difficult lines in the Territory has been operated for years, is one of the best assurances that can be given that these new lines will be operated in the best possible manner. They are important lines as they supply the rich mining camps in the Black Range as well as the mines of Lake Valley and Hillsborough. These camps are destined to fill up rapidly and the amount of mail and passenger traffic over those routes will necessarily be very large.

**Street Railway.**

Following is the list of officers and directors elected by the stockholders of the street railway at their regular meeting last night: T. Romero, President; F. A. Manzanares, Vice-President; J. Rosenwald, Treasurer; Jacob Gross, Secretary.

**DIRECTORS:**  
Joseph Rosenwald, Louis Sulzbacher, T. Romero, F. A. Manzanares, Jacob Gross, A. Levy, L. P. Browne. The company has determined to build a barn for the accommodation of the stock.

**The Ice Cream Social.**

Owing to the heavy rain and excessive inclemency of the weather, the ice cream social to have been given by the ladies of the Presbyterian church at the residence of Mr. Jefferson Reynolds last night, was postponed. As soon as the weather clears up, the social will be held, of which time due notice will be given.

Just received, one hundred and fifty of the fattest beef cattle ever brought to Las Vegas by Frank Maier, who keeps at his meat market constantly the fattest beef, veal, mutton, etc., give him a call.

The latest novelties in ladies ties and collarets and fichus, just placed on the counter, at N. L. Rosenthal's, Railroad Avenue, East Side.

We have now in stock a fresh supply of pure Apple Cider Vinegar. Geo. F. Maitland & Co.

Perzoina a specialty at BILLY'S.

Fresh butter milk from the churn, brought in every morning from the ranch, at Billy's.

E. Germain & Co., El Paso, Texas, are sole agents for California State Dairy Cheese.

Corsets in all styles for ladies and misses, at bottom prices, at N. L. Rosenthal's Railroad Avenue, East Side.

In lace and trimmings, such as Spanish Guipure, Brabant Vornicello, Breton Swiss and Irish, an immense variety, at such low figures that we defy competition, at N. L. Rosenthal, Railroad Avenue, East Side.

Go to Judd's barber shop and get a seraped, Exchange Hotel.

For all kinds of California produce, such as new potatoes, oranges, apricots, plums, apples and peaches send to E. Germain & Co., El Paso, Texas. 7-24-1m

For cheap hardware go to Lockhart & Co's.

Try "Billy's Ponies" Cigars, pure Havana.

Having just returned from the eastern cities on a purchasing tour, and through the facilities of plenty READY CASH, I have bought an immense stock of ladies and childrens shoes, sandals and slippers for less than 50 cents on the dollar, and I offer those goods at less than regular prices, and advise all in quest of shoes, etc., to inspect my stock and prices before purchasing elsewhere. N. L. Rosenthal, Railroad Avenue, East Side.

Cream lemonade at Billy's.

Beautiful fans at Charles Hfield's.
